and/or bases. Store indoors  
within recommended storage  
temperatures 10°C to 35°C /  
50°F to 95°F. Keep out of direct  
sunlight. Store Flat.

Issue Date:  
11/01/20

Revision Date:  
11/01/20

#### PRODUCT DESCRIPTION

Hanger Pins are used in conjunction with ProplexFR® temporary protection to attach sheets to vertical surfaces such as windows, doors, walls, and elevators. Hanger Pins are simple, safe, quick to install, and will not loosen over time. For applications where ProplexFR must be bent around corners, Hanger Pins can be used to securely hold the edges in place.

#### KEY FEATURES & BENEFITS

- Strong and secure
- Easy to use
- Quick to install
- Clean, professional appearance
- Allows for removal and reinstallation of ProplexFR sheets with minimal effort

#### GUIDELINES FOR USE

- Apply strips of Low Tack, Ultra Low Tack or Glass Tape to the surface
- Test the tape in small area prior to install and check it throughout the project to avoid residue being left on the surface
- Peel off release paper, affix adhesive backing to the tape
- Pierce protective material with the pin, place washer over the pin to secure in place
- Fold pin over for extra safety

**Note:** Refer to current [Installation Guide](#) for correct product usage.

#### DISCLAIMER

Information contained within this "Product Data Sheet" is for guidance only and intended for experienced industry professionals. As conditions of usage and installation are beyond our control, we do not warrant performance obtained. Information is given to the best of Entry Point International's knowledge, based on manufacturers input, laboratory testing and practical experience.
