SKANSKA

RHINO TILE[®] FR IN ACTION

Moynihan Train Station - New York, NY

100% Recycled Material

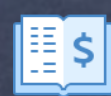

Fast Installation

Flame-Retardant

Reusable

Cost Effective

No Maintenance

4 Years of Protection

- The original protection system called for multiple layers of FR plywood that required replacement once per year.
- Rhino Tile FR went directly over the roof membrane without the need to replace.
- The tiles were exposed to the elements for multiple weather cycles, including high heat and freeze/thaw.

Extreme Traffic

- High reach equipment
- Tracks
- Adjustable scaffolding
- 775,000lbs of steel
- Demolition of existing roof
- 2,200 glass panels
